

Introducing the first ever Modeo™ smartphone with integrated Digital Video Broadcasting- Handheld (DVB-H) technology.

DVB-H Technology

Enables access to the Modeo digital TV service for the latest in mobile entertainment, right in the palm of your hand.

Quad-band GSM and GPRS/EDGE Support

Delivers international compatibility along with high-speed data access and downloads.

2.2" QVGA Display

Utilizes the entire screen with QVGA resolution at up to 30 frames per second for more realistic TV viewing.

One-touch TV Button and Intuitive Interface

Features a format and functionality similar to today's digital cable, for a virtual TV experience and one-touch access to your favorite Modeo programming.

Microsoft® Windows Mobile™ 5.0

Features pocket versions of Microsoft's most popular applications: Outlook, Internet Explorer, MSN Messenger and Windows® Media Player 10. So you can keep up with your life outside of TV.

Modeo™
For the love of TV.
